## TOP FEATURES

### DEEP FILL OPTION

For more water when they want it, customers can select this option to fill the wash basket with their choice of deeper water levels.* The extra water works with robust wash action to effectively break down and rinse away everyday tough messes.

### MOISTURE SENSING

Two sensors closely monitor inside moisture and air temperatures to deliver the right results without the decision making. When loads are evenly dry and air reaches ideal temperatures, the cycle stops to help prevent over- and under-drying.

### SLOW-CLOSE GLASS LID

A full-width glass lid provides a clear view of laundry, pleasing aesthetics and quiet, precision closing.

*Bulky Items cycle only available with deepest water level. ®/™ © 2020 Maytag. All rights reserved. TRG27573.
