

WHD5090GW

4.3 CU. FT. COMPACT FRONT LOAD DRYER

Available in White

1

QUALIFY YOUR CUSTOMER

Are there any space or installation restrictions in the area where you keep your washer and dryer?

INSTALL VIRTUALLY ANYWHERE WITH VENTLESS DESIGN

Increase add-on sales with stack kit W10882520

1

VENTLESS HEAT PUMP DESIGN

Our most efficient compact dryer technology recycles air and captures moisture to take the next step in energy efficiency.

2

FLEXIBLE INSTALLATION OPTIONS

The stack kit (W10882520) allows the dryer to be installed on top of the washer. A 12" pedestal (WFP24GW) raises the washer and dryer to a more comfortable height for loading and unloading.

SELLING IN 60 SECONDS

LAUNDRY

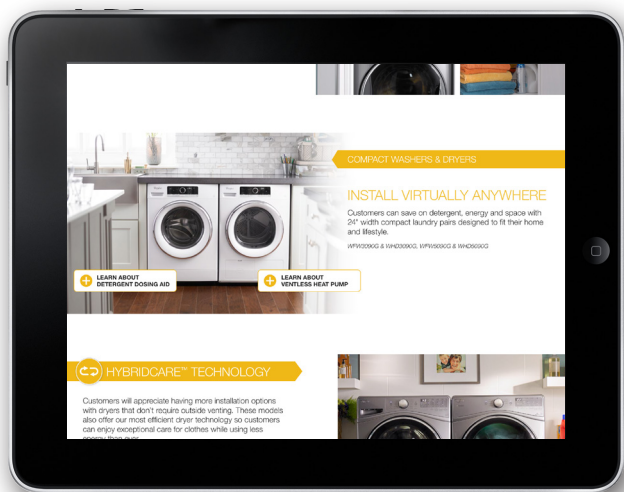

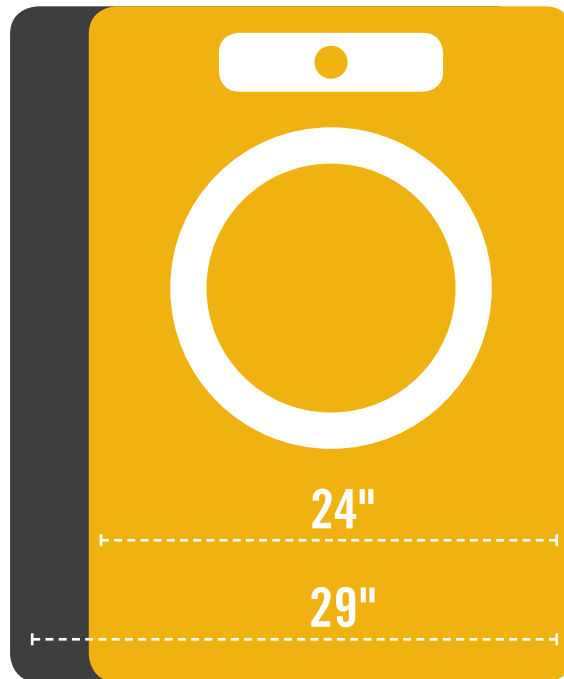

DID YOU KNOW?

Whirlpool brand heat pump technology recycles air and captures moisture so customers can enjoy a more efficient and perfect drying system.

DEMO

Using a tape measure, show customers how much room they can save when they purchase a 24" wide dryer versus a 29" wide model.
