Whirlpool®

1

QUALIFY YOUR CUSTOMER

Are your clothes ever damp after your current dryer finishes a cycle?

2

Which room in your home are your washer and dryer currently located?

WHIRLPOOL® SMART DRYER

Assembled in Marion, Ohio

SELLING IN 60 SECONDS

1

SENSOR DRYING

Advanced Moisture Sensing helps prevent damage caused by overdrying by using three sensors to track moisture and temperature, adapting drying times to end the cycle at just the right time.

2

CARE FOR CLOTHES FROM ANYWHERE

Whether at home or away, customers can control their dryer with help from the Whirlpool® app.**

3

SPECIALTY & CUSTOMIZED CYCLES

Customers can choose from specialty cycles, or create a unique cycle to dry the way they want with the Whirlpool® app, and then download the cycle to the dryer with the Download & Go™ option.

LAUNDRY

*WiFi & App required. Features subject to change. For details and privacy statement, visit whirlpool.com/connect. †Remote enabled must be engaged on appliance.

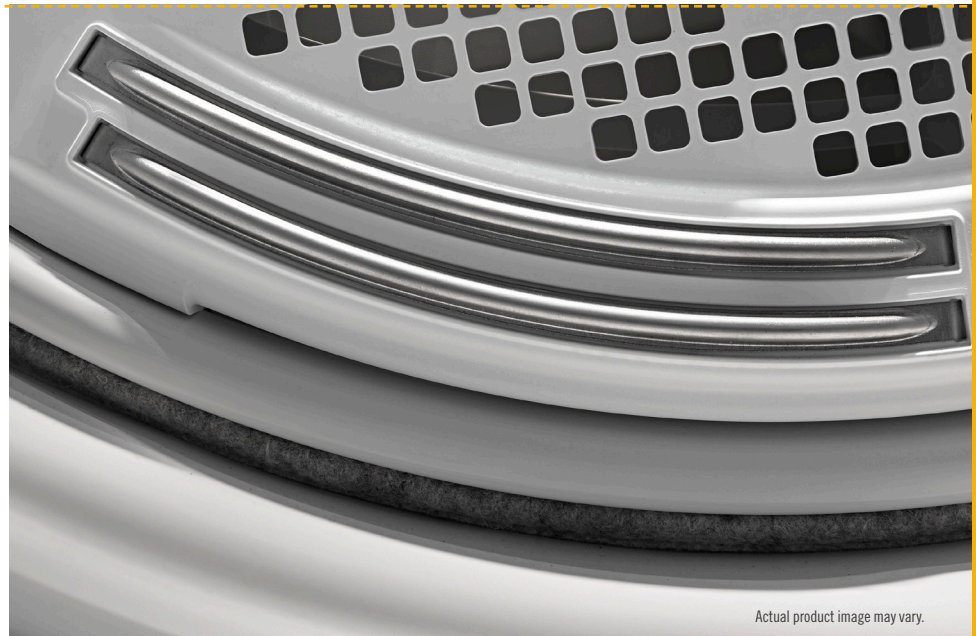

DID YOU KNOW?

One of the most common reasons consumers remove items from the dryer before the cycle is finished is to help prevent wrinkling.**

DEMO

Open the dryer and point out the moisture sensing strips located on the back of the lint screen holder. Explain how the strips, along with the inlet and outlet thermistors, complete the Advanced Moisture Sensing system which adapts drying times to provide the right amount of dry.
