Heavy Duty Components

Die-cast metal knobs on Maytag® gas cooktops are built with high-quality materials for a difference you can see and feel.

ASK: HOW IMPORTANT IS DURABILITY TO YOU?

Share

- With a 10-year limited parts warranty* on the cooktop burners and cast-iron metal grates, we built these cooktops tough enough to keep cookin' for years.

Check maytag.com for more detailed information

Power Simmer Burner

The Power simmer dual stacked burner gives you precise control over your cooktop, allowing you to boil water for pasta, potatoes and soups rapidly or gently hold low temperatures to simmer sauces and melt butter—all with a single burner.

ASK: WHAT TYPES OF COOKING DO YOU DO ON YOUR COOKTOP?

Share

- With a maximum heat of 18,000 BTU this burner has the power to boil water quickly and sear a steak.
- The burner has a small row of flames to provide uniform cooking at temperatures as low as 900 BTUS.

DuraGuard

The DuraGuard™ protective finish helps your steel cooktop surface resist scratching, staining and discoloration that comes from daily use, so it cleans with ease and keeps looking like new year after year.

ASK: HOW OFTEN DO YOU CLEAN YOUR COOKTOP?

Share

- The DuraGuard™ protective finish helps your steel cooktop surface resist scratching, staining and discoloration that comes from daily use, so it cleans with ease.
