36" WIDE WHIRLPOOL FRENCH DOOR BOTTOM FREEZER REFRIGERATOR WITH DUAL ICEMAKERS

WRF767SDEM

Available colors

S | Stainless Steel

Dual Icemakers a part of the ReadySet™ System

ASK: How often do you find yourself purchasing a bag of ice to keep up with your household ice needs?

SHARE: The dual icemakers are ideal to help you keep plenty of ice on hand and ready when you need it. With the fast ice function the two icemakers combined can make 8.5 lbs. of ice in a 24 hour period. The icemakers also have a combined storage space for up to 10 lbs of ice. Now that's more than twice the ice storage!*

Dual Cooling a part of the StoreRight™ System

ASK: Have you ever experienced wilted lettuce in your refrigerator or freezer burn on your ice cream?

SHARE: A **dual evaporator cooling system** has two separate evaporators one in the refrigerator and freezer compartments that work independently to monitor and adapt temperatures and humidity levels as needed. The benefit to an advanced dual cooling system is that it helps to keep refrigerated food fresh with higher humidity levels and helps to reduce freezer burn in the freezer with low humidity levels.

In-Door-Ice® Storage a part of the PerfectPlaces™ System

ASK: How often do you have to stack groceries to get them to fit?

SHARE: In-Door-Ice® storage creates room for an extra full shelf in the refrigerator by moving the ice bin to the door. This gives you additional space to be able to spread your food out in the refrigerator giving you better visibility of the items that are inside. Allowing for all items to sit in the right spot within the refrigerator, which allows for more organization for the items placed inside.

#1 SELLING APPLIANCE BRAND IN THE U.S.A.*
