### Sensor Cycle

**ASK:** Which cycle do you use to wash your dishes?

**SHARE:** Save time by letting your dishwasher make all the decisions. Just push a button and this cycle determines the right amount of cleaning and drying time. A sensor measures the load size, water temperature and how dirty the dishes are. That way everything gets clean and dry for every load.

### 19 Years In A Row Fewer Repairs\*

**ASK:** Why are you shopping for a dishwasher? (62% of customers are shopping for a dishwasher because theirs is broken)

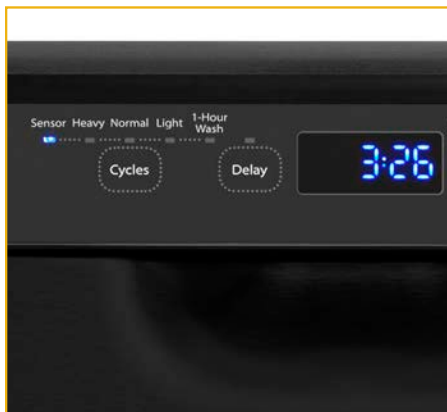

**SHARE:** Whirlpool dishwashers are the #1 best selling brand for a reason. Since 1996, for 19 years in a row, Whirlpool brand dishwashers have had fewer repairs.\* Customers can buy with confidence when they purchase a Whirlpool brand dishwasher.

### 1-Hour Wash Cycle

**ASK:** Are there times when you need your dishes cleaned quickly?

**SHARE:** For fast results, the 1-Hour Wash Cycle cleans the dishes in half the time.\*\*
