**WEG515S0F**  
**5.0 CU. FT. TOTAL CAPACITY**

Also available in electric - WEE510S0F

### Available colors

W | White

B | Black

S | Stainless Steel

### Frozen Bake™ Technology

**ASK:** How often do you make frozen meals? Do you ever need a meal done quickly?

**SHARE:** Frozen Bake™ technology cooks frozen foods faster\* by eliminating the need to preheat the oven without sacrificing results. All the customer needs to do is set the recommended time and temperature from the item's packaging and the oven calculates the best cook time based on food type.

### SpeedHeat™ Burners

**ASK:** What types of food do you cook on your cooktop?

**SHARE:** Sear and boil quickly with the high temperatures of the two 15,000-BTU burners.

### Edge-To-Edge Cast-iron Grates

**SALES FLOOR DEMO:** Have different sizes of pots and pans available to show the flexibility and amount of space on the cooktop.

**SHARE:** Maximize space with cast-iron grates that extend across the entire cooktop, giving you the flexibility to place pots and pans anywhere.

**#1 SELLING APPLIANCE BRAND IN THE U.S.A.\***

\*Compared to a traditional preheat and bake cycle for pizza, nuggets/fries, pies and lasagna.
