TRIPLE FILTER WASH SYSTEM

ASK: How often do you pre-rinse your dishes?

SHARE: The Triple Filter Wash System helps you skip the pre-rinse so you can spend less time scrubbing. How it works: A combination of three filters removes even tiny food particles from the wash water.

1-HOUR WASH CYCLE

ASK: Do you ever need your dishes cleaned right away?

SHARE: There's no need to use the mixing bowl as a backup when the 1-Hour Wash Cycle can clean light loads fast.

SAVE MONEY AND ENERGY

ASK: How would you like to save money on water and energy with your dishwasher?

SHARE: Amana® dishwashers are ENERGY STAR® Certified to help you conserve energy and pay less for utilities. Amana® dishwashers exceed the tougher, new 2016 ENERGY STAR® requirements.
