AMANA WASHER

Model No. NTW4605EW and NE/GD4655EW

COLORS

W
White

SPRECKLED PORCELAIN TUB

ASK: What do you feel would be more durable, plastic or porcelain?

SHARE: Some other manufacturers offer a plastic wash tub, Amana gives the consumer a 3.5 cu. smooth, porcelain tub.

LATE LID LOCK

ASK: How often do you add clothing to your washer after you start it?

SHARE: Many HE washers now have a lid lock that engages at the beginning of the cycle, but with Amana's late lid lock your washing machine won't lock until the final spin cycle, giving you more time to add items to the wash.

DEEP WATER WASH

ASK: Would you like to have a cycle that will add more water to your dirtiest loads?

SHARE: With the Deep Water Wash cycle customers can select a cycle that will use more water than would be used on the normal cycle.
