Laundry Pairs & Accessories

MADE TO MATCH

Better Style and Function
A new laundry pair does more than just look great. The washer and dryer are designed to complement each other in performance and capacity.

Capacity
New washers and dryers have the capacity to handle more laundry in a single load. Plus, when clothes aren’t cramped, washing and drying is more effective.

Fabric Care
High-efficiency dryers use multiple sensors to monitor the load as it dries. This way, the cycle is stopped when the load is perfectly dry.

DON’T FORGET THE PEDESTALS

Complete the Laundry Room with Pedestals
Washer and dryer pedestals make loading and unloading easier. Pedestals with storage drawers also provide space-saving storage for laundry supplies. The pedestals listed below can be matched with laundry pairs across brands.

10" Pedestal (XHP1000XW)
15.5" Pedestal with Storage (XHPC155YC/XW)
15.5" Whirlpool® Pedestal with Storage (WFP2715HW/C)

Need to maximize laundry room space?
The Stack Kit for Long Vent / Standard Dryers (W10869845) offers easy installation with only basic tools required.
