## Find your everydrop<sup>®</sup> filter

everydrop® is making a manufacturing change, meaning that refrigerators in stock may come with one of two different filters. This guide will show you how to identify the correct filter for each refrigerator model.

In November 2023, some models had a manufacturing change that affected the water filter they use. Check the table below to see which filter matches the 12-digit model number of each refrigerator.

To determine the correct filter for your appliance, please follow these instructions: If the last two digits in your model number are equal to or less than the number indicated in the 'Filter 4' column, use filter 4. If the last two digits in the model number are greater than or equal to that number, use Filter A.

Sales Model	Model Number	
	FILTER 4 EDR4RXD1	FILTER A EDRARXD1
