## START THE CONVERSATION

What types of ingredients do you use in your recipes?

## TOP FEATURES

1

### PRESERVA® FOOD CARE SYSTEM

This innovative system combines three technologies that work together to independently manage temperature and humidity levels in the refrigerator and freezer.

2

### AUTOMATIC ICE MAKER

Ensures that customers have a constant supply of ice for entertaining.

3

### PLATINUM COLORED INTERIOR WITH METALLIC TRIM

A glossy platinum-color on the interior walls of the refrigerator and freezer offers an attractive, elegant look that is a welcome contrast to a traditional white interior.

## DID YOU KNOW?

Sequential dual evaporators change the way air flows through the refrigerator and the freezer. This is a key component to extending the life of fresh and frozen ingredients, particularly produce.

## HOW TO DEMONSTRATE

### PRESERVA® FOOD CARE SYSTEM

Show off the vents or baffles between the sections and discuss with customers how the air is exchanged between fresh and frozen to keep temperatures level.
