KITCHENAID® 36" SMART COMMERCIAL-STYLE DUAL FUEL RANGE WITH 6 BURNERS

Dimensions: h: 36" w: 35.875"

Colors:  Passion Red  Scorched Orange

 Avocado Cream  Imperial Black  Ink Blue

 Milkshake  Misty Blue  Stainless Steel

 Yellow Pepper

START THE CONVERSATION

What recipes do you create that require even heating across multiple racks?

TOP FEATURES

1

EVEN-HEAT™ TECHNOLOGY

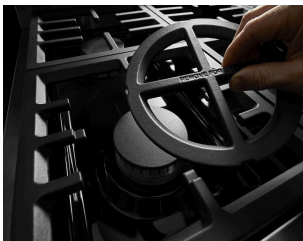

A combination of Even-Heat™ Preheat working with Even-Heat™ True Convection circulate heat throughout the oven cavity for even cooking on every level.

2

DUAL-CONCENTRIC OVEN KNOB

Two knobs in one allow one-handed control of both oven mode and temperature. Responsive backlighting confirms that settings are correct or provides alerts to let the user know adjustments are needed.

3

THREE LEVEL CONVERTIBLE GRATES

Enable 3 heat levels on the same burner allowing high-heat searing and sautéing, low-heat simmering and melting and accommodating round-bottom woks.

DID YOU KNOW?

Experts recommend adjusting any recipe for convection in two ways: either by lowering baking temperature by 25 degrees or shortening roasting time by 25%. EasyConvect™ Conversion takes the guesswork out of convection cooking by converting the recipe's conventional settings to convection settings for you.

HOW TO DEMONSTRATE

EVEN-HEAT™ TECHNOLOGY

Show your customers the bow-tie shaped convection baffle in the back of the oven cavity. Let them know that Even-Heat™ True Convection uses the unique shape of this baffle along with a convection element and fan to ensure even baking across all three racks.
