## HOW TO DEMONSTRATE

### THREE LEVEL CONVERTIBLE GRATES

Draw attention to the Three-Level Convertible Grates on this commercial rangetop by removing the grate insert to nestle a round bottom wok as a prop on your sales floor. Let your customers know that the 20k BTU dual-flame burner below was designed to give you precise control of powerful highs, steady lows and the wide range of temperatures in between. The insert can be left level for high-heat searing and sautéing, flipped over to lift a pan above the burner's flame for simmering and melting or removed to nestle a round-bottom wok directly in the flame for stir-fry.
