DRAWER WITH STEAM COOKING**

Dimensions: h: 15.75" w: 23.5" d: 23.75"

Colors:  PrintShield™ Stainless Finish

START THE CONVERSATION

Do you ever struggle to cook healthy veggies or rice in the microwave without them drying out?

TOP FEATURES

1

STEAM COOKING WITH INCLUDED STEAMER

Steam Cooking quickly cooks and reheats vegetables, chicken, and rice without added oils, while helping reduce moisture loss. Add water to the included steamer and select what you're making. The integrated sensor will detect the boil to start counting down the ideal cook time.

2

KEEP WARM

Keep Warm maintains low heat for up to 60 minutes to keep cooked foods at serving temperature, allowing you to focus on other steps in your creative process or finish one dish while another rests.

3

TAP TO OPEN

Tap To Open allows you to open and close the microwave drawer at the touch of a button, giving you easy access even with your hands full.

DID YOU KNOW?

Traditional microwave heating pulls moisture out of food, leaving veggies rubbery. Built-in Steam Cooking senses when water boils to cook rice and veggies in gentle steam—locking in flavor and nutrients without oil.

HOW TO DEMONSTRATE

STEAM COOKING WITH INCLUDED STEAMER

Open the drawer smoothly and lift out (or point inside to) the included steamer vessel. Tell your customer, unlike basic microwave steaming that relies on guesswork, you simply add water to the base, pop in your chicken, rice, or veggies, and press Start. Built-in sensors actually detect the exact moment the water hits a boil and then start a precision countdown.
