What types of ingredients do you use on a daily basis?

TOP FEATURES

1

5-DOOR CONFIGURATION

The industry-first 5-door configuration includes two exterior drawers: a temperature-controlled drawer with five electronic presets and a produce drawer that locks in humidity levels to help retain freshness.

2

PLATINUM COLORED INTERIOR WITH METALLIC TRIM

Platinum Colored Interior brings premium style inside the refrigerator to complement the quality ingredients cooks keep on hand. Industry first platinum-color interior sleek silver walls accented by metallic trim on shelves, drawers and door bins offer a step up from the standard white interior.

3

3-TIER FREEZER DRAWER WITH STORAGE DIVIDER

Exceed customer expectations with the ability to organize frozen food items on three levels that make ingredients easier to access, plus a storage divider to keep small items in their desired spot.

DID YOU KNOW?

KitchenAid introduced the first freestanding refrigerator with a 5-door configuration in 2015. This revolutionary configuration has taken refrigerator storage to a new level with dedicated compartments that provide adjustable climate control for different foods.

HOW TO DEMONSTRATE

5-DOOR CONFIGURATION

Show customers the exterior drawers. Point out the five electronic presets on the temperature-controlled drawer. Tell customers how they can use presets like Cold Drinks, Thaw or Marinating to get the drawer nice and cool for whatever ingredients they're storing.
