KSIS730T

30-INCH 4-ELEMENT INDUCTION SLIDE-IN
CONVECTION RANGE WITH AIR FRY

Dimensions: h: 36.75" w: 29.875" d: 26.3125"

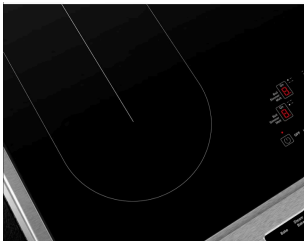

Colors:  PrintShield™ Stainless Finish

START THE CONVERSATION

How much would instant temperature responsiveness and high-heat precision expand your culinary techniques?

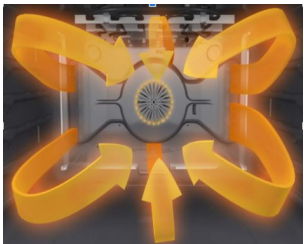

TOP FEATURES

1

SENSOR INDUCTION TECHNOLOGY

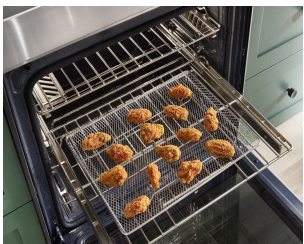

Generates heat directly within cookware, reaching high temperatures quickly and cooling down rapidly for precise control that enables a full range of cooking techniques.

2

EVEN-HEAT™ TRUE CONVECTION

features a unique bow-tie design with heating element and fan that circulates hot air throughout the entire oven, providing consistent temperatures for crisp, flaky baked goods, juicy, well-browned roasts and flavorful, caramelized vegetables.

3

NO PREHEAT AIR FRY MODE

lets you save time and skip preheating while you get crispy and browned food while using less oil than traditional deep frying. Dishwasher-safe basket sold separately.

DID YOU KNOW?

Induction offers up to 90% energy efficiency—versus 40% for gas—by directing heat straight into cookware for faster searing and precise control over delicate sauces, as reported by the U.S. Dept. of Energy.

HOW TO DEMONSTRATE

SENSOR INDUCTION TECHNOLOGY

Show how direct pan heating lets you transition effortlessly from high-heat searing to delicate sous-vide-style simmering, keeping heat locked within the pan rather than radiant ambient loss.
