DID YOU KNOW?

GRILL MODE

WHAT IS GRILL MODE?

A feature that allows you to get the perfect sear all year. Just insert the grill accessory into the oven, and you're on your way to that delicious grilled taste right from the convenience of your kitchen—no backyard needed.

HOW DOES THE INDOOR GRILL CYCLE COMPARE TO OUTDOOR GRILLING?

Our enclosed oven maintains temperature with no temperature monitoring while a traditional grill requires constant monitoring.

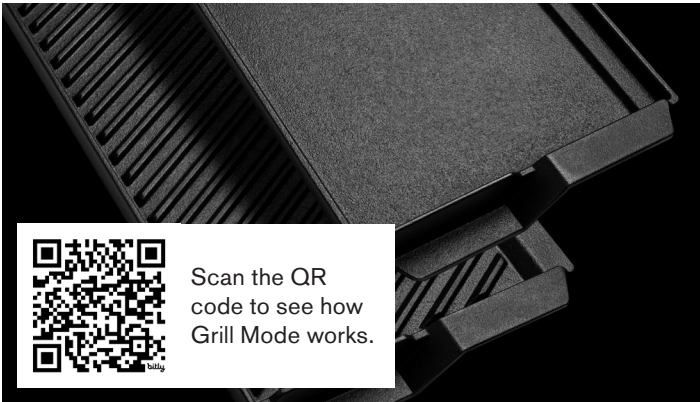

WILL I SEE GRILL MARKS ON THE FOOD?

Yes. We have tested a variety of food and grill marks can be achieved when using the Grill Mode cycle. Please follow the cooking instructions that include allowing the oven to preheat and using the reversible cast iron grill/griddle accessory.

CAN I USE THE REVERSIBLE CAST IRON GRIDDLE ACCESSORY ON MY COOKTOP?

Yes. We wanted to create an accessory that was versatile enough to be used both in the oven for indoor grilling and reversible to use as a standard griddle on the cooktop delivering multiple use cases for the consumers.
