START THE CONVERSATION

What items do you have a hard time getting completely clean?

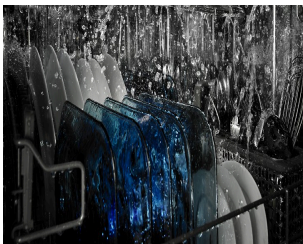

TOP FEATURES

1

DUAL POWER FILTRATION

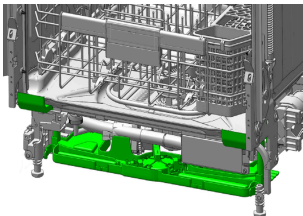

Skip the soaking, scrubbing and pre-rinsing with Maytag® dishwashers that put an end to pre-work. Industry-exclusive Dual Power Filtration delivers serious cleaning strength and cuts down on time spent at the sink. The combined power of 100% microfiltration and a 4-blade stainless steel chopper flushes out food waste so it doesn't end up back on dishes—and you can unload confidently.

2

POWERBLAST® CYCLE

The PowerBlast® cycle is game for whatever you throw at it, from your messiest pans to your favorite glassware. It uses high-pressure spray jets and increased temperatures to remove tough, stuck-on food. And to make sure your dishes come out sparkling, the PowerBlast® cycle uses hot steam to finish the job.

3

LEAK DETECT

The Leak Detect system is a combination of multiple features that measure and monitor the flow of water at various points. If a problem is sensed, the unit can take action by draining the tub and alerting you when necessary.

DID YOU KNOW? Dual Power Filtration helps customers skip the need to soak, scrub, or prewash dishes.

HOW TO DEMONSTRATE

DUAL POWER FILTRATION

Use your phone or tablet to visit the Video Center on LearnWhirlpool.com. Show your customers the video "Dual Power Filtration vs. a Whole Meal."
