FRY - 5.0 CU. FT.

Dimensions: h: 46.4" w: 29.9" d: 24.5"

Colors:  Fingerprint Resistant Stainless Steel

START THE CONVERSATION

Do you enjoy the taste and texture of grilled foods but wish you could get that same perfect sear and flavor year-round, right in your kitchen?

TOP FEATURES

1

GRILL MODE

Get the perfect sear all year with Grill Mode. Firing up to 550°, Grill Mode delivers crispy, charred outsides and a juicy, flavorful center. Just insert the cast iron grill/griddle, and you're on your way to that signature grilled taste right from the convenience of your kitchen—no backyard needed.

2

NO PREHEAT AIR FRY

Strapped for time? No Preheat Air Fry fires up fast to eliminate the preheat process and cooks fried foods fast—delivering a crispy-on-the-outside, juicy-on-the-inside taste using little to no additional oil*.

*Compared to traditional deep frying

3

SLOW COOK

Simmering food at low, medium or high temperatures, Slow Cook breaks down tougher cuts of meat, resulting in tender, flavorful dishes—no meat tenderizer needed. The cycle automatically turns off after 12 hours, so you can set it and keep your day moving.

DID YOU KNOW?

Our max temperature is 550F. After preheating the oven and the reversible cast iron grill/griddle accessory, a consumer can get a delicious charred grill taste and make burgers in 6 minutes, veggies in 10 minutes, and shrimp skewers in 4 minutes.

HOW TO DEMONSTRATE

GRILL MODE

Open the oven door and insert the grill accessory into the oven, showing your customer how it locks into place on the rack. If possible, have smell testers (like a grilled seasoning aroma) nearby to engage the senses and help customers imagine the experience, no backyard needed!
