START THE CONVERSATION

How often do you open and close your refrigerator doors on a given day?

TOP FEATURES

1

POWERCOLD® FEATURE

With one touch, the refrigerator chills down quickly to help keep everything cool, even if the whole family's been browsing with the door open.

2

EVENAIR™ COOLING SYSTEM

A series of vents distributes cold air effectively. It keeps everything consistently cold front and back, so groceries stay at the right temperature and your freezer doesn't frost over.

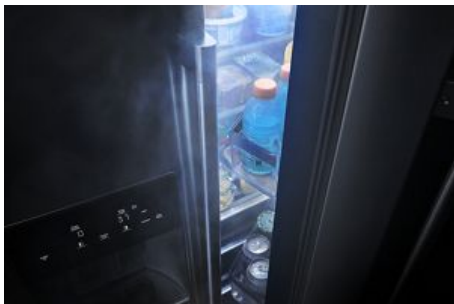

3

LED LIGHT TOWER

See every item in your refrigerator with corner to corner LED lighting on every shelf.

DID YOU KNOW? Every time you open your refrigerator door, the internal temperature rises. This can cause your food to spoil faster.

HOW TO DEMONSTRATE

POWERCOLD® FEATURE

Point to the PowerCold® button. Explain to your customers that it will increase the temperature up to 6 hours to get everything nice and cold, nice and quick.
