Where do you plan on keeping your chest freezer?

TOP FEATURES

TACKLE GARAGE CLIMATES
BETWEEN 0°-110° F
Garage Ready™

1

GARAGE READY

A freezer built for the garage. When in freezer mode, tackle garage climates between 0°F and 110°F with a unit that's Garage Ready. In summer or winter, your garage freezer maintains your optimal temperatures inside.

COLD FOOD STORAGE
FLEXIBILITY
Freezer-to-Fridge Convertibility

2

FREEZER-TO-FRIDGE CONVERTIBILITY

With Freezer-to-Fridge Convertibility, you can stock up on what you need, when you need it, with a freezer that can convert to a refrigerator.

3

3-BASKET STORAGE SYSTEM

Make digging for frozen goods a thing of the past. Keep your freezer organized with the 3-Basket Storage System.

DID YOU KNOW? Many people store freezers in garages that are not kept as warm or cool as the house.

HOW TO DEMONSTRATE

GARAGE READY

Explain to the customer that this freezer is designed for the temperature ranges typical for a garage.
