TOP FEATURES

1

FAST BOIL

Boil 12 cups of water on average 25% faster on Booster to help you get dinner to the table in less time.

2

QUICK CLEAN UP

Induction technology keeps the cooktop surrounding the elements cool, helping prevent baked-on messes. With fewer messes, you can clean the touch-activated controls on the cooktop as easily as you use them.

3

PAN DETECTION

Easily see which element is activated with Pan Detection. A flashing symbol alerts you when a pan is removed or replaced on an active element.

DID YOU KNOW?

Boil 12 cups of water on average 25% faster on Booster to help you get dinner to the table in less time. (Comparing the 3,000 watt induction element to a Whirlpool brand 3,000 watt radiant element.)
