HOW TO DEMONSTRATE

3RD RACK

Tell your customers that they can Load more and run less with a 3rd Rack that makes extra rack space for hard-to-fit items.* They'll have fewer leftover dishes in the sink with space for long utensils and measuring cups above, plus features below that adjust to make room for large, taller items. Showcase this by talking through the bottom rack first: tell them that the 3 piece Silverware basket that adjusts to your needs. Then pull out the 2nd rack with adjustable tines, tell them it can now fit a large stock-pot & large water bottle. Finally go to the 3rd rack that fits silverware, hard-to-fit utensils like tongs and even measuring cups.

*Compared to Whirlpool® dishwashers without a 3rd level rack.
