DID YOU KNOW?

Load & Go™ determines the right amount of detergent to dispense for each load based on five factors: Fabric Type, Detergent Concentration, Cycle Selected, Soil Level and Load Size.

HOW TO DEMONSTRATE

ALL-IN-ONE WASHER & DRYER

With the washer plugged in, point out how easy it is to set the detergent concentration by holding the "soil" and "temperature buttons. Take out the Load & Go™ XL dispenser and let customers know that the dispenser holds enough detergent for up to 40 loads*. An indicator on the console lets them know when it's time to refill.

*Based on an 8-lb load
