AUTODRY™ DRYING SYSTEM**

Dimensions: h: 43" w: 29" d: 28.25"

Colors: White

START THE CONVERSATION

What items do you not dry in the dryer to help ensure they last longer?

TOP FEATURES

1

AUTODRY™ DRYING SYSTEM

Help prevent overdrying with the AutoDry™ system that senses when clothes have reached the right moisture content and stops the cycle. An outlet thermistor that monitors the air temperature of the air leaving the dryer plus moisture sensing strips detect the level of moisture in the load to make sure the cycle ends when clothes are ready.

2

WRINKLE SHIELD™ OPTION

After the cycle ends, help keep wrinkles from setting into clean, dry fabrics with the Wrinkle Shield™ Option. It keeps clothes tumbling for up to 150 minutes after the cycle ends or until you open the door.

3

HAMPER DOOR

Easily transfer loads from the washer to the dryer and from the dryer to the laundry basket without worrying about clean clothes falling on the floor with this wide-opening door.

DID YOU KNOW? Customers can enjoy the AutoDry™ system by pairing this dryer with a matching agitator or impeller washer.

HOW TO DEMONSTRATE

AUTODRY™ DRYING SYSTEM

Point out the moisture sensing strips along the back wall of the interior of the dryer. Explain to customers that clothes brush up against the metal strips, detecting if there is still moisture in them. Once the dryer determines enough moisture has been removed, the cycle stops.
