HOW TO DEMONSTRATE

NUGGET ICE MAKER

If this unit is powered on your floor- procure a Flojet pump and bottled water to run this so it produces ice. Then dispense some for your customer as you talk about its desirability.
If it is not, and the customer is aware of chewable ice, open the door and open that ice compartment and let them know this unit can produce up to 3cups of ice in an hour and will hold up to 2.4lbs.
