What types of food do you cook on your cooktop?

TOP FEATURES

1

INDUCTION TECHNOLOGY

Induction Technology makes cooking and cleaning fast by transferring heat to the pot, not the cooking surface. This makes cooking and cleaning spills simple.

2

NO PREHEAT AIR FRY

Air Fry faves in a healthier way with less oil than traditional frying

3

GRIDDLE ZONE

Griddle Zone delivers new cooking capabilities by connecting two individual heating elements to form one larger one, making it easy to cook different foods at once.

DID YOU KNOW?

The global induction cooktops market size was valued at USD 18,667.8 million in 2020 and is expected to grow at a compound annual growth rate (CAGR) of 8.5% from 2021 to 2028. Source: GVR, April 2023.
