Top Load Washers

From adding enough detergent for 20 loads* in the Load & Go™ Dispenser to pretreating without the sink, your customers can get it all done at once with our lineup of top load washers. Plus, they can manage laundry right from their smartphone with optional smart features in the Whirlpool® App.**

[Go to Washers](#)

Dryers

Whirlpool® Dryers let your customers dry clothes the way they want on their schedule. Intuitive Controls help them create customized cycles for whatever they're drying in just a few touches, while sensors track moisture and temperature to help prevent overdrying.

LOAD & GO™ DISPENSER

START THE CONVERSATION

How do you decide how much detergent to use for each load?

Detergent overuse can cause excess wear on fabric fibers and damage to clothes. Also, without proper care, detergent residue buildup in the washer can harbor odor-causing residue. The **Load & Go™ Dispenser determines the correct amount of detergent for each load.**

CLEAN LAUNDRY IN FEWER STEPS

Skip adding detergent to every load with the Load & Go™ Dispenser. Select Whirlpool® Top Load Washers feature a bulk dispenser that holds enough detergent for up to 20 loads.*

20  **Load & Go™ Dispenser**
holds up to 20 loads* of detergent
WTW6120H, WTW7120H and WTW8120H

DID YOU KNOW?

Different types of loads often require different amounts of detergent. The Load & Go™ Dispenser uses 3 factors for each load to determine the optimal amount of detergent.

Preset detergent
concentration

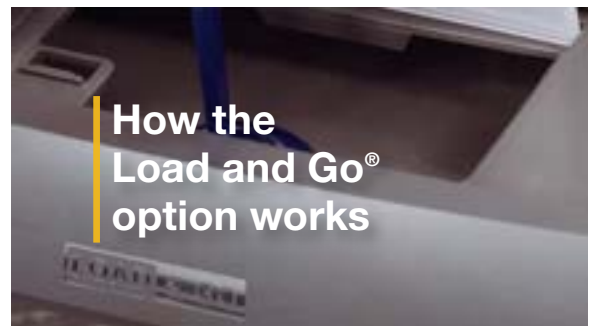

Load size

Soil level

SMART CAPABLE WASHER

START THE CONVERSATION

When do you use a smart device in your daily routine?

Streamline your laundry routine using your smartphone or tablet thanks to Smart Features Available with a Connected Subscription and App.

KEEP THE DAY MOVING

Whirlpool® Smart Capable Top Load Washers help customers manage laundry right from their smartphone with optional smart features in the Whirlpool® App.*

SCHEDULE WASH CYCLE AVAILABLE

Customers can schedule their washer so clothes are ready for the dryer when they are. Using the Whirlpool® App, they can tell the washer when they'll be home by so it starts and ends the cycle on their schedule.

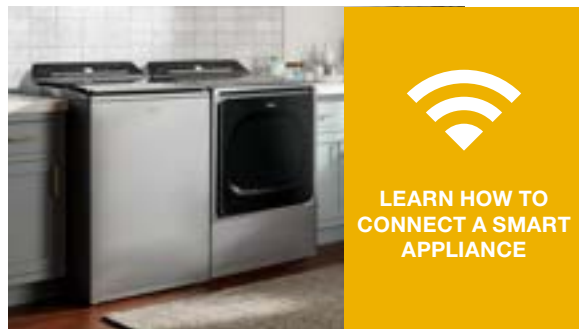

FAVORITE CYCLES AVAILABLE

Create and save favorite cycles under any name and edit at any time on the optional Whirlpool® App. Customers can save one cycle at a time on the washer, or activate Favorite Cycles in the app to send cycles to their washer and start the load remotely.*

Mobile broadband is accessed in
68% of households.**

PRETREAT STATION

START THE CONVERSATION

Where do you pretreat stains on clothing?

The **Pretreat Station** helps you get it all done at once with quick and easy access to a built-in faucet and pretreat brush.

SOAK, SCRUB AND WASH ALL IN ONE SPOT

With the Pretreat Station, customers can treat stains and rinse without a trip to the sink. Models with the Pretreat Station Plus include a dual temperature built-in faucet for hot or cold water, and detergent can be added directly to the water stream. Customers can easily fill the pretreat brush with detergent, scrub, then store it in its own spot on the washer.

DID YOU KNOW?

Pre-wash stain removers are concentrated and designed to go directly on the stains. Detergents, on the other hand, mix in with lots of water to clean, and the water dilutes the stain-removing power. But if you apply a dab of detergent to the stain before washing and let it sit, the detergent alone can remove stains.*

DEMO

Open the lid and take out the pretreat brush. Explore how to spot treat stains by opening the bottom to see where the detergent goes in.

MADE TO MATCH

Show customers the capabilities of smart laundry pairs. Innovative features help them streamline their laundry routine while optional smart features in the Whirlpool® App keep laundry moving from anywhere.*

WTW5100H (IMPELLER) & WE/GD5100H

Simplify the process with this pair. Soak, scrub and wash all in one spot with a built-in faucet and pretreat brush. Dry clothes the way you want with customized cycles.

WTW5105H (AGITATOR) & WE/GD5100H

Enjoy the convenience of the Pretreat Station in a washer that offers the Two-Way Wash Action Agitator.

WTW6120H & WE/GD6120H

Add enough detergent for 20 loads* and pretreat without the sink with this smart capable pair. The Whirlpool® App** allows you to control the pair even when you're away.

WTW7120H & WE/GD7120H

This pair delivers the same Load & Go™ Dispenser and Pretreat Station Plus benefits. Plus, you can wash and dry even more with a larger capacity washer.

WTW8120H & WE/GD8120H

Step up dryer capacity with this pair which also features a large see-through side-swing door.

ADVANCED MOISTURE SENSING

START THE CONVERSATION

What items do you remove from the dryer before they are completely dry?

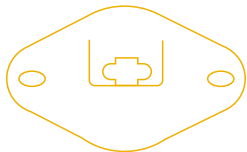

Advanced Moisture Sensing uses three sensors to determine when fabrics are dry and stop the cycle automatically to help prevent overdrying.

SENSORS TRACK MOISTURE DURING DRYING

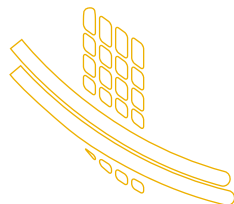

Get clothes just the right amount of dry with Advanced Moisture Sensing. Three active sensors track moisture and temperature to end the cycle at the right time, and help prevent damage caused by overdrying.

DID YOU KNOW?

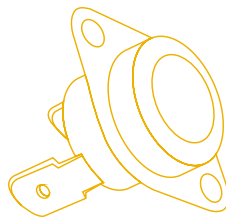

Customers may remove items from the dryer before the cycle finishes to guard against shrinking or wrinkles. Advanced Moisture Sensing uses an outlet thermistor, moisture sensing strips and an inlet thermistor to ensure the drying cycle automatically ends when the load is dry.

Outlet thermistor measures air temperature as it exits the dryer

Moisture sensing strips in the dryer drum detect when a damp item hits

Inlet thermistor monitors incoming air temperature
